It appears that on the evening preceding Stamboul's sale at auction the merits of the respective trotters were being taiked about. Mr. Busbey offered to wager \$10,000 that Kremlin could beat Stamboul three races in five, and Mr. Stokes accepted the bet, with the understanding that if Robert Bonner purchased Stamboul at the sale the bet was not to go.

The men met not long after to post the money and sign an agreement. A quibble then took place regarding the time for the matches. Mr. Busbey wanted the races decided between sept. 10 and Oct. 20. There seems to be no definite rule of law on the subject, so far as the courts are concerned, the person guilty of cannabalism being put on his defense to show by the circumstances of the particular case that the act was the result of supreme necessity.

Much sympathy is felt for the unfortunate men in the present case, who are still in a very weak condition. They can hardly be considered sane, and talk in an incoherent manner.
